## Twycross Zoo – 14 July 2022

Dear Parent/Carer,

Your child has been selected to attend Twycross Zoo on 14 July 2022. This educational visit is aimed at helping pupils to develop more knowledge about animal adaptations and ecology which are linked to their Year 9 topics and also their GCSE content; they will gain an understanding of how each organism is adapted to its environment and how human activities can impact on the various ecosystems around the globe. This will be a stimulating, information-packed day featuring a series of talks guaranteed to enthuse, inform and inspire. The day will give the students opportunities to see species that they may not have seen before or even heard about before.
