Year 8 Reading Intervention: Bedrock – March 2026

Dear Parent/Carer,

At Hodge Hill College, we strive to ensure that all pupils reach their full potential. As a school, we are working to ensure that all our pupils are reading at or above their chronological reading age. We have identified that your child will really benefit from some additional support.

Bedrock is a brilliant online platform that supports a child's reading through vocabulary, grammar and comprehension. Pupils will read a range of texts and then answer comprehension questions to develop their understanding. The level of challenge in the texts will vary according to your child's needs. This is a fantastic way to receive targeted intervention.

We would like your child to attend after-school intervention sessions. Our first session will start on **Tuesday 3 March 2026**, and will continue running until further notice. Each session will be from **15:10 to 15:40** in the Library.

Yours faithfully,

T Abdul-Karim

Mrs T Abdul-Karim
Assistant Headteacher: Literacy, Equality and Diversity
