### Goblin Pocket Community Art Workshop

Dear Parent/Carer,

Your child has been selected to attend a school visit to Fort Shopping Park to take part in a Creative Capital arts workshop. They will be working with a professional artist focusing on constructing 3D sculptures of natural form mushrooms. This will link into the overall theme of Mycoremediation, and the resulting work will be exhibited as part of a large exhibition for the community and the wider public.

The main educational goal or focus of the workshop is to develop practical creative skills, as well as being part of a greater cultural and community experience and being able to show their work to a larger audience.

Scientifically, they will also explore the theme of Mycoremediation, which is an eco-friendly form of bioremediation that uses fungi to decontaminate polluted environments.

#### Trip Details
